PROFESSIONAL SUMMARY

Senior iOS & Application Support Engineer with 7+ years of experience supporting, modernizing, and maintaining mission-critical enterprise applications across the full SDLC. At App In Snap, provided Tier-3 (L3) production support for the JS Bank Mobile App, utilizing ITIL frameworks and ITSM tools for incident management, SLA compliance, root-cause analysis (RCA), and production bug fixes. Experienced in monitoring/logging systems, API/web service troubleshooting, and automation scripting, complemented by a strong enterprise background in SQL databases, CI/CD pipelines, and cloud-hosted environments. Led the end-to-end modernization of the JS Bank app to Swift 6 (MVVM & Combine), improving launch speed by 30%.

TECHNICAL EXPERTISE

- **Mobile & iOS Frameworks:** Swift (Swift 6), Objective-C, SwiftUI, UIKit, Foundation, Auto Layout, Core Animation, SwiftData, Core Data, Realm, SQLite, Keychain
- **Architecture & Patterns:** MVVM, MVVM-C, Clean Architecture, MVC, Dependency Injection, Protocol-Oriented Programming (POP), SOLID Principles, Design Patterns
- **Concurrency & Reactive:** Swift Concurrency (async/await, Actors, Tasks, @MainActor), Grand Central Dispatch (GCD), Combine Framework
- **APIs & Real-Time Tech:** RESTful APIs, GraphQL, Alamofire, WebRTC, Agora SDK, Twilio Chat, Socket.IO, Push Notifications (APNs, VoIP, Background Modes)
- **Security & Payments:** Biometric Auth (FaceID/TouchID), SSL Pinning, AES Encryption, Jailbreak Detection, Apple Pay, In-App Purchases (IAP), Stripe, Braintree, PayPal
- **Testing & Optimization:** XCTest, XCUITest, Unit & UI Testing, Xcode Instruments (Time Profiler, Leaks, Memory Graph), Firebase Crashlytics & Analytics
- **Mobile Application Support & Production Operations:** L3 Application Support, Incident & Problem Management (ITIL), Root Cause Analysis (RCA), SLA & Escalation Handling, ITSM Tools (Jira Service Management, ServiceNow), Live Crash Symbolication, Monitoring & Logging (Splunk, Kibana, Datadog, Instruments), Network & API Debugging (Postman), Shell Scripting (Bash), Windows Administration, Patch & Release Verification
- **Others:** Git, Swift Package Manager (SPM), CocoaPods, Fastlane, CI/CD Pipelines, TestFlight, C#, ASP.NET Core, SQL Server, Kotlin

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer (BackEnd, iOS & Android) | Shape Ventures

Karachi, Pakistan • Aug 2025 – Present

- **Architecture & Development:** Architect and engineer high-performance modules for a scalable Music Creator Platform utilizing Swift, UIKit, MVVM-C, and Combine.
- **Feature Leadership:** Spearhead key product modules including Beat Discovery, Studio Creation & Audio Publishing, Community Battles, and Real-time Leaderboards.
- **Monetization:** Engineered In-App Purchases (IAP) and auto-renewing subscriptions, driving platform monetization.
- **Quality & Security:** Enforced stringent authentication, session security, and automated unit testing (XCTest) to maximize release stability and regression resistance.
- **Cross-Platform:** Maintain and optimize companion Android features using Kotlin, ensuring cross-platform feature parity.
- **Featured Delivery:** Key App: Florida Insurance Estimator (App Store: apps.apple.com/us/app/florida-insurance-estimator/id6760091100)

Senior iOS Developer / L3 Application Support Engineer | App In Snap

Karachi, Pakistan • Sep 2022 – Aug 2025

- **L3 Application Support:** Served as a Mobile Application Support Engineer (L3) for the JS Bank Mobile App, owning production incident management, SLA tracking, and root-cause analysis (RCA) using ITIL-aligned workflows.
- **Modernization & Performance:** Spearheaded modernization of the flagship JS Bank Mobile App from legacy Objective-C to Swift 6 with MVVM and Combine, reducing app launch time by ~30%.
- **Build Optimization & Automation:** Re-architected dependency management by transitioning from CocoaPods to Swift Package Manager (SPM), slashing build times and automating release workflows.
- **Incident Triage & Stability:** Debugged critical production exceptions, memory leaks, and network dropouts via centralized logging and Crashlytics, maintaining a 99.8%+ crash-free session rate.
- **FinTech Security:** Built high-security banking layers including biometric authentication (FaceID/TouchID), SSL Pinning,and mission-critical fund transfer modules.
- **Leadership & Recognition:** Mentored engineers, championed Clean Architecture, and awarded Star Employee of the Year (2024) & Employee of the Month (May 2025) for rapid production recovery.
- **Honors:** Honored as Star Employee of the Year (2024) and Employee of the Month (May 2025) for high-impact contributions.
- **Featured Delivery:** Key Apps: JS Bank (apps.apple.com/pk/app/js-mobile/id1561630920) | AIK Digital (apps.apple.com/pk/app/aik/id6740029815)

Full-Stack Developer (.NET) — Part-Time | Elevatech Solutions

Karachi, Pakistan • Oct 2025 – Jun 2026

- **Enterprise Architecture:** Engineered scalable B2B and B2C web/API solutions with ASP.NET Core, C#, and SQL Server adhering to SOLID and Clean Architecture.
- **API & Database:** Designed high-throughput RESTful endpoints and optimized complex SQL queries, stored procedures, and database indexing.
- **Solutions Engineering:** Customized and expanded NopCommerce ecommerce engine with custom payment workflows, automated bulk Excel data import/export, and integrations.
- **Featured Project:** Key Project: EwaysTraders (ewaystraders.com)

iOS Developer | App Maisters (LN Technologies)

Karachi, Pakistan • Jan 2022 – Sep 2022

- **Feature Engineering:** Enhanced Hawaii Revealed Travel Suite with robust offline vector mapping, GPS-guided driving audio tours, and In-App Purchases.
- **Technical Leadership:** Supervised technical execution across 4+ iOS applications, mentoring 3 junior developers through code review standards.
- **App Maintenance:** Maintained production-critical apps: ReactiveObj, RideShare, ShowOrGhost, and Code8.
- **Featured Delivery:** Key Apps: Revealed Travel Guides (apps.apple.com/us/app/revealed-travel-guides/id6444348575), Kauai Island & Maui Island Drive Tours.

iOS Developer | Online Care LLC

Remote (US) • May 2019 – Dec 2021

- **Full App Rewrite:** Acted as sole iOS engineer executing complete rewrite of the telemedicine platform from Objective-C to Swift 5.
- **Real-Time Telehealth:** Implemented real-time video consultations and chat utilizing Agora SDK, WebRTC, and Socket.IO.
- **Payment Integration:** Integrated multi-channel payment solutions including Apple Pay, Stripe, and Braintree.
- **Featured Delivery:** Key Product: OnlineCare Healthcare Suite (apps.apple.com/uy/developer/onlinecare-com-llc/id1072058827)

SELECTED NOTABLE PROJECTS

- **Bandar Estate (Kuwait):** Integrated GraphQL API layer and Twilio Chat for high-concurrency real estate listings and real-time chat (App Store: apps.apple.com/us/app/bandarestate/id6464623323).
- **Dr. Ziauddin Hospital:** Developed patient-facing healthcare application utilizing Swift, MVC, and Core Data for offline patient records (App Store: apps.apple.com/pk/app/dr-ziauddin-hospital/id1527738714).

- **TrolleyMate:** Revamped codebase stability, eliminated memory leaks, and enhanced UI responsiveness for e-commerce delivery (App Store: apps.apple.com/pk/app/trolleymate/id1524257269).
- **MDConsults Telehealth:** Engineered HIPAA-compliant telemedicine features, consultation booking, and WebRTC streaming stabilization.

EARLIER EXPERIENCE

- **Maple Pharmaceuticals | .NET Developer (Jul 2018 – May 2019):** Developed Attendance Management System in C#/WinForms/SQL Server; contributed to ERP modules (Inventory, Payroll, HR).
- **Inabia Software | Junior Web Developer (Jan 2018 – Jun 2019):** Developed ASP.NET and SQL features for Daleelo.org web platform.

EDUCATION & CERTIFICATIONS

Master of Computer Science (MCS) — University of Sindh (2016)

- iOS & Swift Certified — TestDome (Score: Top 10% benchmark)
- Practical Design Patterns in Swift — LinkedIn Learning
- iOS Development: Architecture, Threading & Grand Central Dispatch (GCD)
- Swift 5 & Swift Concurrency Essential Training
- Git & Distributed Version Control Essential Training

HONORS & RECOGNITION

- **Star Employee of the Year (2024):** App In Snap — Awarded for exceptional leadership in migrating enterprise banking mobile systems and delivering critical milestones.
- **Employee of the Month (May 2025):** App In Snap — Recognized for engineering excellence, rapid problem resolution, and mentoring junior engineers.
